

Giovanni Coroneo

I'm currently an MSc candidate in Communication Design at Politecnico di Milano, where I've spent recent years honing my skills in information design and visual identity through computational methods.

Skills

	Software	Figma Photoshop Illustrator InDesign Blender After Effects Premiere
	Code	Python JavaScript React Three.js p5.js HTML CSS Arduino Cursor VS Code
	Research tools	RAWGraphs 4CAT Gephi
	AI workflows	Claude API Higgsfield ComfyUI Stable Diffusion video/image generation models
	Languages	Italian English, IELTS Academic 6.5, 2023 French, currently being learned

Education

- Milan, Italy.
September 2024,
expected December 2026.

 - MSc Communication Design — Politecnico di Milano | 29.4/30 (average)
I am specialising in information design and computational visual design, in the second year of the course. My thesis with Marco Quaggiotto reverse engineers how AI-generated serial video could be produced.
- Milan, Italy.
September 2021,
July 2024.

 - BSc Communication Design — Politecnico di Milano | 110/110
Final thesis NJÖRD, a speculative retail service for custom-coloured farmed salmon, exhibited and then also evaluated on site, where four assessment matrices were built from the input of 286 exhibition visitors.
- Nottingham, UK.
January 2024,
June 2024.

 - Exchange — Nottingham Trent University, School of Art and Design
Selected for a six-month exchange taken during the final year of the BSc, in a studio-based curriculum. Coursework in brand and editorial design under British brief culture, ending with KesselsKramer brief.
- Milan, Italy.
September 2016,
May 2021.

 - Art High School Diploma — Liceo Artistico Fondazione Sacro Cuore | 98/100
A five-year artistic curriculum in drawing, painting, art history, photography and analogue studio work. A training in image-making by hand, later redirected towards communication design at university level.

Experience

- Milan, Italy.
May 2026,
present.

 - Brand Designer & AI Specialist — [I MILLE ↗](#)
Brand and identity projects for the studio's clients, from early concept to production of visual systems. I also build AI-assisted workflows for the studio, integrating generative tools into the design process.
- Amsterdam, Netherlands.
July 2026.

 - Designer — Digital Methods Initiative, University of Amsterdam | [Summer School ↗](#)
Designer of The Fruit Are Choosing Violence, a comparative audit of how researchers, LLMs, users and TikTok itself moderate violent AI-videos. I gave form to the findings produced by six researchers.
- Milan, Italy.
February 2026,
May 2026.

 - Information Design Research Intern — [DensityDesign Lab ↗](#)
I encoded the paper evaluation booklets of the exhibition Stream, Beef, Vibes into shared datasets, then I designed the visualisations for three of its projects and prototyped the lab's DDENSO archive website.
- Amsterdam, Netherlands.
January 2026.

 - Designer — Digital Methods Initiative, University of Amsterdam | [Winter School ↗](#)
Designer of Dissecting Digital IDs, on the infrastructures and imaginaries of national digital identity systems in five countries. I designed the artefacts through which its results were opened to discussion.

Exhibitions

- Milan, Italy.
February 2026.

 - Not clean enough — [Stream, Beef, Vibes ↗](#)
An information design installation on the comments of those excluded by the clean girl aesthetic, ending with an evaluation area asking each visitor to re-apply the categorisation the visualisation was built on.
- Milan, Italy.
June 2024.

 - NJÖRD — [Raw Scenarios ↗](#)
A speculative service letting visitors choose the colour of a farmed salmon at a steel console we built. I designed both its interface and its implementation; 286 people configured a fillet over the exhibition.
- Milan, Italy.
April 2022,
March 2023.

 - Milano University District — [Mu.D ↗](#)
Artistic and organisational director of its first edition, a public event held across the city's design and art universities. I designed the identity of the event and ran the dialogue with its sponsors and venues.
